

DAKSHITA PAL

College Park, Maryland | Email: xxxxxxxx@umd.edu | Cell: (240)-927-xxxx

OBJECTIVE

To get a Full-time position as a Software Engineer

EDUCATION

- B.S., 2026, Computer Science, Minor in Statistics, University of Maryland, College Park
- Relevant coursework: Data Structures & Algorithms, Computer Systems, Object-Oriented Programming, Parallel Computing, Data Visualization

PROFESSIONAL EXPERIENCE

Amazon June 2025 - August 2025
Software Development Engineer Intern

- Optimized Redshift's Internal Analysis tool by reducing storage on AWS services, mitigating scalability limits and improving the tool's efficiency.
- Accelerated fleet-wide analysis by improving query efficiency, **reducing storage by 11%** and bytes scanned per SQL query **by 13%**. Enabling faster and cost-effective performance across thousands of Redshift clusters.

Breakerspace Lab, University of Maryland August 2024 - December 2024
Undergraduate Cybersecurity Researcher

- Collaborated in a project with a focus on transit censorship analysis which contributed to a deeper understanding of the constraints placed on internet freedom and free speech for **over 15 countries**.
- Achieved the identification of **2,000 server IPs** generating block pages and utilized the server IP data to determine the Internet Service Provider (ISP) was accountable for censorship measures.

Computing Catalyst, University of Maryland June 2024 - August 2024
Computing Instructor for Cybersecurity and TA for Artificial Intelligence Courses

- Delivered lessons on core cybersecurity principles including network security, encryption, wireshark, and nslookup. Oversaw projects focused on password generation, network scanning and analysis, steganography, and phishing.
- Supervised students in the development of **reinforcement learning** models for autonomous vehicles to avoid collisions in diverse driving environments such as roundabouts, highway, parking etc.

LEADERSHIP AND INVOLVEMENT

Women in Cybersecurity (WiCyS), University of Maryland
President

May 2025 - Present

- **Plan and lead** all events and activities for the student organization, coordinating professional and social events.

CodePath
Peer Mentor

March 2025 - August 2025

- Mentored peers, with **impactful outcomes**: **83%** gained confidence to finish the course, and **91%** felt supported by having a peer mentor.

SKILLS

- Programming languages: Java, Python, C/C++, OCaml, CUDA, Node.js, Rust, R, Bash, SQL, HTML, CSS, React, Javascript
- Platforms and Tools: AWS, Linux, Unix, Ubuntu, Git, MATLAB, VS Code, Eclipse, Jupyter Notebook, R Studio, Google Colab
- Libraries and Frameworks: Pandas, NumPy, Matplotlib, Express.js, MongoDB, OpenMP, MPI, scikit-learn, sciPy
